To Put On Flesh And Increase Weight

Most people eat from four to six pounds of good solid fat-making food every day and still do not increase in weight one ounce, while on the other hand many of the plump, chunky folks eat very lightly and keep gaining all the time. It's all bosh to say that this is the nature of the individual. It isn't Nature's way at all.

Stuffing won't help them. A dozen meals a day won't make them gain a "stay there" pound. All the fat-producing elements of their food just stay there in the intestines until they pass from the body as waste. What such people need is something that will prepare these fatty food elethem and deposit them all about the body-something too, that will multicrease their blood's carrying power

For such a condition it is well to recommend eating a Sargol tablet with every meal. Sargol is not, as some believe a patented drug, but is simply a careful combination of six of the most effective and powerful assimilative and flesh building ele ments known to chemistry. It is absolutely harmless, yet has been wonderfully effective and a single tablet and social organizations. The Prophet on the part of the police department eaten with each meal often, according to reports of users, has the effect of increasing the weight of a thin man or woman from three to five pounds a week. The Pastor suggested that the phrase, "Hastening the preparation for the Day of God," gives more nearly the Apostie's thought than does the Common Version rendering; for it is apparent that we cannot hasten that Day, since the Divine Plan was fixed before the foundation of the world. We can ments so that their blood can absorb hasten our preparation for the things coming, however. The Day of the Lord is now present. The change of the Church the speaker believes to be very near.

Character-Traits Necessary to Saint ship.

The remainder of the discourse was devoted to character-development. God's people hope to attain the character-likeness of Christ. He had the Father's spirit in all things. He made the Father's will His own. So are they to do. They are to have the mind of Christ.—Philippians 2.5.

The Scriptures instruct us that the Lord's Spirit manifests itself in meekness in our intercourse with the brethren, in a humble appreciation of self, in contentment with whatever God gives us, in a delight to have Christ as our Teacher. God is now calling only these possessed of a strong individuality and a leve for righteousness. They must have real character, a strong will, trained to full obedience to God.
